Amount available to pay debt falling due, .\$2,776,412 61 In the month of April last, the Commissioners of the Canal Fund issued a circular, which was sent as extensively as practicable to the holders of the Erie and Cham plain canal stock, informing them that the stock would be paid at the Manhattan Bank on the 1st of July, 1845, and that interest on the stock would not be paid after that date. This circular also informed the holders that the missioners would redeem the stock, and would pay emium thereon of two dollars on a hundred of the five per cents, and three dollars on the six per cents until July, per cents, and three deliars of the six per cents until sury, 1844, from which time the premium would be diminished quarterly. On the first of January, 1845, the premium was established at half of one per cent on the five per cents, and three-fourths of one per cent on the six per

Upon what data these calculations are made the Gommissioners do not state, but the receipts thus far at Albany and Troy confirm the estimates of the Commissioners. At the west and of the Eric Canal the tolls have increased. The estimated receipts for tolls in 1845, are put down at \$100,127 90 less than in 1844, and the expenditures at

Estimated surplus of tolls for the year ending 30th September, 1845.... Should the surplus be no larger than estimated in the \$251,472.24 bove table for 1845, and a similar surplus be realized in 1846, there will be a great deficiency in the means to meet the installments when due. It will be seen that the surplus Canal resources last year reached that point, which rendered it necessary for the Commissioners to make a communication to the county treasurers for the discontinuance of that portion of the mill tax, which was appropriated to the use of the Canal Fund. The Canal revenues will not receive any further aid from the mill tax, and the whole of that tax now in the course of col-lection will be paid into the State Treasury, and applied to the use of the Canal Fund. From these statements to the use of the Canal Fund. From these statements we should judge that a new loam must be made to raise the balance required to pay the debt due in 1845 and 1846. There is a hill now pending in the Legislature to authorize the issue of a stock based upon the future contributions of the Safety Fund Banks. That fund is now indebted to the State for Canal tolls deposited in broken Safety Fund banks, \$486,433, which the Commissioners are anxious to make available in paying the indebtedness due in 1845 and 1846. The only feasible way of accomplishing this is to issue a stock based upon the Safety Fund contributions.

Ashes—Holders of Pots are firm at \$8.81; and at that price the sales have been to a fair extent. Fearls we now quote at \$4.29, which is a farther decline. The move ments in this article this season have been as follows:— 2

Delivered, bris. 4,614 938

Stock now on hand, bris. 8,852 1,349

Making a total stock of 10,201 bris, which, with the supply of old on hand, 6,000 bris., gives a stock of 16,201 bris of Pots and Pearls.

Breadstupps.—Holders of Genesee are firm at the advance, we now quote \$4.81\frac{1}{2}\$; Ohio and Michigan are held at \$4.75 a \$4.81\frac{1}{2}\$, and in some cases \$4.87\frac{1}{2}\$; New Orleans fancy we quote firm at \$4.75 a \$4.87\frac{1}{2}\$, common at \$4.62\frac{1}{2}\$; a \$4.68\frac{1}{2}\$. There is an active demand for all the southern brands, and prices are advancing. Brandy wine sells at \$4.87\frac{1}{2}\$, and Richmond county at \$5.25. Sales of rye flour at \$3 \$3.12\frac{1}{2}\$. Wheat remains as last stated, without any alteration in price or demand. Northern rye we quote at 64\frac{1}{2}\$ a 65c.; northern corn sells at 46 a 47c., weight and measure; southern at 45\frac{1}{2}\$ a 46c., do. do. Corton.—On Saturday afternoon a negotiation was closed for the shipment of a cargo of Texas Cotton; to day, the sales amount to 1800 bales, although they are reported at nearly twice that amount, the prices paid do not show any decline, and holders are firm, and supply the market sparingly. The business this week has been much curtailed in consequence of the disparity of views between buyers and sellers. We continue our quotations.

PROVISIONS—The Pork market is rather inactive, and prices are by no means firm. We notice small sales of old prime Ohio at \$9 431 a \$9 651; Old Mess at \$12 624 New Prime is held at \$10 37 a \$10 00; new do at \$13 37 j; The demand for Ohio Lard is rather limited. We quote sales of Frime, barrel and keg, at 7 j a \$5 Orange County butter sells at 16 a 18; Western for shipping at 10 a 12 j; Chesse in boxes and casks is sold at 6 a 8.

COAL—The coal business has not been so active in Philadelphia for six years. On the first of April the stocks in all the Eastern ports were exhausted, or nearly so. The stock on hand in Philadelphia was also unusually small. Vessels continue in demand both in the Delaware and the Schuylkill; and freights, already high, are likely to advance still further. Both the canal and railroad lines are in active operation, and the scenes at the depots are quite animated.

FISH—Dry Cod is held at \$2 87 j, with 2 very fair demand.

Har—North River bale, good qualities, sells at 37 j a 42 cents. The receipts are large for the season and the demand moderate.

Molasses.—The market is heavy. Small sales to the trade are made of Porto Rice at 28 a 29c.; St. Croix at 30c.; New Orleans at 28 a 29c.

Whissex—Domestic, in drudge casks, sells at 23 cts.; in Western and prison bbls. fit 23 a 23 jc. There is a fair demand for each description.

Cotton Market.

New Orleans, May 3—In our review of Wednesday morning last, we observed that only a limited business had been done in Cotton during the early part of the week, and attributed it to the delay in not receiving any further accounts from Europa. On Wednesday there was more disposition to operate, and the sales amounted to 7000 bales, at the same prices before paid. By the mail of Thursday we received the accounts per Caledonia steamer, which leave the Liverpool market in pretty much the same position as noticed by the Great Western. The business in our own market amounted on that day to about 4000 bales on previous terms. Yesterday, there was some enquiry, and the sales figured up 4800 bales, and for the week of 24,300 bales.

BARRADOES, April 20.—During the past month 1300 bbls Corn Meal have arrived. The last sale was \$3 20 per bbl; Corn \$1 35 per bag; Black Eyed Peas \$1.75 per bushel; Flour \$5.75 a 6; Bread, no sale; Rice \$3.50 a 5 60; Tobacco, no sale; Pickled Pork \$10.50 a 11; Beef, no sale; Candles \$12 a 13; Butter \$15 a 16; Lard 8.—Exchange \$4.75 a \$4.75 per £1.

Kingaron, (Ja.) April 21.—Since our last we have to report that but little change has taken place in the state of the market; holders are yet firm, and many articles command higher rates than they did at the time of our last issue. The rains are still partial, and there have been but few arrivals; the market therefore presents a firm appearance, and is decidedly in favor of holders. Flour.—Duty on Foreign 6s; on British 4s per bbl. The determination of holders to obtain better prices has, as was noticed in our last, somewhat yielded to the refusal of the trade to purchase at advanced rates; and the arrival of two cargoes, which are yet unsold, has checked the desire for speculations unless they can be made at a reduced figure; the sales have in consequence been confined. for Mail Service-Amount Saved per annum by the New Contracts in the New England States and New York-Railroads and Steamboats states and New York—Railroads and Steamboats not contracted with yet—Report respecting the First Comptrollership—Members of Congress in Washington—J. Fennimore Cooper's New Work in Progress—List of Clerks in State Department— The Court Fool Journal—Messenger in the Post Office Department restored—Mr. Buchanan and

To-day the contracts have been finally closed for the ensuing four years mail coach and horse service in the New England States, and New York. The following is the saving which has been affected in this branch of the service in the different States:-

In Main the amount saved per annum in New Hampshire, do do do do Vermont, do do do do Massachusetts, do do do Rhode Island, do do do Rhode Island, do do do New York, do do do do New York, 20,001 29,721 19,124 2,463 11,058 91,792

of New York, during the last one hundred years.—
He has plenty of scope for his pen and imagination, and I suppose we may expect a book of great attractions.

A few days ago our colleague furnished you with a list of clerks in the State Department. As that list contained various errors and omissions, I have obtained the following corrected statement, which may be relied upon as accurate.

W. S. Derrick, Acting Chief Clerk (Whig) \$2,000 Hutter occupies W. S. Derrick's place until a Chief Clerk is appointed (dem) 1,600 Mm. Hunter, Diplomatic Bureau (whig) 1,600 F. Markoe, do. to convey the idea, that \$1,000 (!) worth of type, was all that was requisite to enable it to perform the Congressional printing (!) and that they did not need credit for this amount (!) and their being driven to announce to the public, with a view of gulling it if they can, that they have beautiful little private fortunes (!) to back them up, and enable them to go ahead; when the fact is that this is all gammon, and actually shows their weakness, by exposing the necessity which they are under, in order to bolster up their tottering selves of proclaiming themselves to be in possession of means here and there, and everywhere. It they were as rich as they thus announce, they would stop the inquiries as to their credit, by giving a cheque to the inquirer for the amount of his bill, instead of talking about how much they are worth! The paper can't last more than three months longer, (if that long) as the only circulation it ever had, was that of office-holders and seckers, who took it as a sort of subsidy to the original John Jones, when he was supposed to have, and very probably had, considerable kirchen cabinet influence with John Tyler. The philosophers, poets, mesmerizers, magnetizers, unitarian and universalist preachers, and many other things, and some more, who have succeeded to the office, materials, brains, sillness, foolishness, nonsense (and added knavery) of John, have not succeeded him in kitchen cabinet influence; and, therefore, they can no longer compel men to take their paper when they don't want to read it. Will the court fool dare to deny that such a convessation as I have dialed respecting their desiring type on credit, ever took place? I wait a reply.

Our colleague informed you the other day of the removal of Mr. Sherwood, one of the messengers at the Post Office Department, because he went home to his dinner at neon, which, I think, was not out of the owner of the proscription on account of the opinion of the clabinet who profess to be the opponents of the proscription on account of the opini
